Reno Tides Consortium Meeting

Milan | 21 - 22 October 2026

We're looking forward to getting the Reno Tides consortium together again in Milan!
As we move into the final year(!) of the project, this meeting is a good moment to take stock of where we are, share what's happening across the countries and focus on how we make the most of the work still ahead. Over two days at BASE Milano, we'll dive into some of the tools being developed, work together on next steps and think about how we can make sure the results of Reno Tides keep being useful after the project ends.
And, of course, there will be plenty of time to reconnect over lunch, aperitivo and dinner.
